

Look Up Record Description

Notes: This file contains one record for each possible value in a specific look up table. To use it, match the code in the Look Up column of any record description with the Look Up Type in this file. Then match the value in the specific field with the Look Up Item in this file.

Numeric fields are not zero-filled.

The file is not in any particular sequence.

The Look Up column refers to the Look Up record description.

Example: The Real Property Parcel file has a field called Water System. The Look Up Type is 56. To get a description of the Water System when the value in the Water System field is 2, select the Look Up Description from this file where the Look Up Type = 56 and the Look Up Item = 2.

Field Name	Format	Length	Look Up	Description
Look Up Type	character	3		
Look Up Item	character	3		
Look Up Description	number	50
